

Web Design 101 - Wireframing

September 28, 2020

wireframe

a real quick design of your website that you do on a paper,
BEFORE WRITING DOWN ANY CODE

mock up

to exactly make the layout that you wish to do in the future
not so good to start with

TIP

a good way to start is to see other people's websites and
some ui patterns
then make a wireframe
then mock up(optional)
make the animated website(optional)
